Ingredients

- LAURYL GLUCOSIDE: A sugar-based ingredient. Provides gentle skin cleansing.
- COCOAMIDOPROPYL BETAINE: This ingredient is based on coconut oil. It strengthens the foaming properties of the bath foam and enriches the formula. It also provides gentle skin cleansing action. However, this ingredient is not included in the BDIH list of raw materials. In combination with lauryl glycoside, it yields excellent results in terms of effectiveness, skin mildness, and ecological impact. This is why Wellments Natural Cosmetics decided to use this ingredient.
- DISODIUM COCOAMPHODIACETATE: A cleansing ingredient.
- PINUS SILVESTRIS OIL: Essential oil of pine needles. Contributes to the fragrance pattern and gives the bath foam an invigorating effect.
- EUCALYPTUS GLOBULUS OIL: Essential oil of eucalyptus. Contributes to the fragrance pattern and gives the bath foam an invigorating effect.
- MENTHA PIPERITA OIL: Essential oil of peppermint. Contributes to the fragrance pattern and gives the bath foam an invigorating effect.
- SIMMONDSIA CHINENSIS OIL: Jojoba oil. A skin care ingredient that counteracts skin dehydration.
